Corporate Presentation November 2017

CAUTIONARY STATEMENT

All information included in this presentation, including any information as to the Company's future financial or operating performance, and other statements that express management's expectations or estimates of future performance, other than statements of historical fact, constitute forward looking information or forward-looking statements and are based on expectations, estimates, and projections as of the date of this presentation. For example, forward-looking statements contained in this presentation are found under, but are not limited to being included under, the headings A Strong Start, Plan, Updated Resource Estimate, Zones at Various Cutoff Grades, Next Steps, and all Resource tables. For a full list of cautionary language related to the Filo del Sol Resource refer to the Filo del Sol Report. References to the heap leach potential, exploration upside, resource conversion potential, resource expansion potential, timing of engineering studies, timing of a decision on a PEA, potential for future production with respect to the Filo del Sol Project are all forward looking statements.

Forward-looking statements are made to provide information about management's current expectations and plans. Forward-looking statements are generally identifiable by, but are not limited to, the use of the words "may", "will", "should", "continue", "expect", "anticipate", "estimate", "believe", "targeting", "intend", "plan", "guidance", "outlook", "potential", "strategy" or "project" Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by management, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Reliance on such forward-looking statements involves risks, uncertainties and other factors that may cause the actual financial results, performance or achievements of Filo to be materially different from those expressed or implied by those forward-looking statements, and the forward-looking statements are not guarantees of future performance. These risks, uncertainties and other factors include, but are not limited to, exploration and development risks, metal price risk, the strength of the financial markets, the market price of Filo shares, the ability to obtain financing, the risks inherent in foreign operations and the risk of inadequate infrastructure, currency risks, environmental and socio-political risks, title risk to property, the dependence on key personnel, risks inherent in mineral resource estimation and exposure to uninsurable risks. Certain data in this presentation was obtained from various external data sources, and the Company has not verified such data with independent sources. Accordingly, no representation or warranty, express or implied, is made and no reliance should be placed, on the fairness, accuracy, correctness, completeness or reliability of that data.

For a more comprehensive discussion of the risks faced by the Company, and which may cause its actual financial results, performance or achievements to be materially different from those expressed or implied by forward-looking information or forward-looking statements, please refer to the risks set out in Filo Mining's Annual Information Form (AIF) which can be found under the Company's profile at www.sedar.com. The risks described in the Annual Information Form are hereby incorporated by reference into this presentation.

The Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise except as required by applicable law.

Mineral Resource Disclosure Notes and Qualified Persons

This presentation includes written disclosure of Mineral Resources for the Filo del Sol Deposit. These notes are an integral part of this disclosure and should be read in conjunction with every written disclosure of the Mineral Resources in this presentation. To put the summary resource information included in this presentation into its complete context the reader should review the entire relevant Technical Report for each project. This document may use the terms "Measured", "Indicated", and "Inferred" Resources as these terms are defined under Canada's NI 43-101. U.S. investors are advised that, while such terms are recognized and required by Canadian regulations, the U.S. Securities and Exchange Commission does not recognize them. Readers are cautioned that Mineral Resources do not have demonstrated economic viability and are further cautioned not to assume that all or any part of Measured or Indicated Resources will ever be converted into Mineral Reserves.

Filo del Sol

Filo del Sol is the subject of a Technical Report titled, "Resource Update for the Filo del Sol Property Region III Chile and San Juan Province, Argentina, "the **Filo Report**" and dated October 4, 2017. The effective date for the Filo Report is September 27, 2017 This report is available under the Filo Mining profile on SEDAR www.sedar.com.

Qualified Persons

The disclosure of scientific and technical information regarding the Company's properties in this presentation was prepared by or reviewed by: Bob Carmichael, P. Eng., the Company's Vice President, Exploration who is a Qualified Person in accordance with the requirements of NI 43-101.

CORPORATE OVERVIEW

A NEW EXCITING COPPER-GOLD-SILVER DEVELOPMENT COMPANY WITH EXPLORATION UPSIDE

Filo del Sol Location

Key Financial Data

As of October 24, 2017

Head Office:	Vancouver, BC
Ticker:	TSXV: FIL NASDAQ First North: FIL
Share price:	CAD 2.33/sh
Shares outstanding:	62.2 Msh
Fully diluted:	66.9 Msh
Market cap:	CAD 145.4m
Cash balance (as of June 30, 2017):	CAD 7.3m

YTD Share Price

Key Shareholders

Key shareholders ⁽²⁾	Msh	Ownership
Zebra Holdings	19.4	12.5 %
Lundin Family	14.2	9.2 %
JP Morgan Asset Management (UK)	5.8	3.7 %
Gadd & Cie Sa	2.9	1.9 %
US Global Investors, Inc.	1.6	1.0 %
Management	8.5	5.7%

A STRONG START

2017 WAS THE YEAR THE COMPANY WAS JUMPSTARTED TOWARDS DEVELOPMENT

YTD Completed Objectives

- Spun-out of NGEx in September, 2016
- Raised CAD 20m at CAD 2.00/sh in October, 2016
- Completed successful exploration program in March 2017 expanding the resource by 61% (all categories)
- Further metallurgical tests underway at Filo South
- Preliminary engineering work underway with targeted release of a PEA in Q1 2018

Timeline & Significant Events

PLAN – A THREE PHASE APPROACH

A NEW CHAPTER OF EXPLORATION SUCCESS IN LATIN AMERICA

I

- Expand the resource in all categories - **(completed)**
- Confirm initial metallurgical recoveries for all economic mineralized domains - **(completed)**

II

- Finalize a PEA that is expected to be released for Q1 2018
- Prepare a 10km drill program focused at infilling and upgrading the current resources

III

- 2017/2018 work program - collect sufficient data for a Pre-Feasibility Study ("PFS") during 2018, contingent on the recommendations from the PEA

2017 PROGRAM - KEY OUTCOMES

CRITICAL MASS ACHIEVED IN 2017 THAT SETS UP FILO MINING FOR 2018...

- **Significant expansion to existing resource**

- 61% increase to overall resource (all categories)
- 98% conversion of inferred to indicated

- **Improved resource definition by metallurgical boundaries**

- Resource now broken down into clear metallurgical zones of gold oxide, copper-gold oxide, silver and primary sulphide that points to a polymetallic low-cost heap-leach operation

- **New focused management appointed**

- Adam Lundin appointed as President & CEO to lead the Filo Mining through its future funding pathway as the Filo del Sol project progresses towards development

- **Engineering and further metallurgical advances**

- Engineering underway for inaugural PEA to be released in Q1 2018
- Investigating sequential leaching of copper and gold and enhancing silver leach potential

- **Exploration is still in its early days with further resource upside potential to come**

- Resource constrained by pit shell
- Resource remains open in multiple directions. Excellent exploration upside

RESOURCE OVERVIEW

FOCUS ON THE LEACHABLE ZONES WITHIN THE OVERALL RESOURCE
 GOLD OXIDE – COPPER-GOLD OXIDE - SILVER

INDICATED RESOURCE ONLY – Contained Metals

Gold Oxide Zone

- 710 koz of gold
- 5.1 Moz of silver

Copper Gold Zone

- 1.6 Blbs of copper
- 1.6 Moz of gold
- 15.5 Moz of silver

Silver Zone

- 0.6 Blbs of copper
- 0.5 Moz of gold
- 81.6 Moz of silver

COLUMN LEACH TESTWORK

VERY ENCOURAGING

Leach Recoveries By Zone

- Gold Zone: 93% gold; 70% silver
- Copper-Gold Zone: 82% copper*; 87% gold**; 71% silver**
- Silver zone***: 61% copper, 63% gold, and 73% silver

NOTES

* Good results with minimal sulfuric acid addition;

** Gold and silver recoveries from copper-gold oxide zone with sequential leach. Material was acid leached first to recover the copper, followed by rinsing, neutralization, and cyanide leaching for gold and silver recovery.

*** Silver zone: Sequential bottle roll test (80% passing minus 10 mesh)

For more details on the leach test work please see the Filo 43-101 Report

RESOURCE BREAKDOWN BY METAL VALUE⁽¹⁾

THE PRIMARY METAL IS COPPER FOLLOWED BY GOLD AND SILVER

Indicated as % of Metal Value

Inferred as % of Metal Value

The Filo del Sol is truly a copper dominant deposit that benefits from gold and silver credits

1. Assumed metal prices are USD 3.00/lb copper, USD 1,300/oz gold and USD 20.00/lb silver

UPDATED RESOURCE ESTIMATE

SEE 'FILO REPORT' FOR DETAILS

Total Resource

Zone	Cutoff	Category	Tonnes (millions)	Cu (%)	Au (g/t)	Ag (g/t)	lbs Cu (millions)	Ounces Au (thousands)	Ounces Ag (thousands)
AuOx	0.20 g/t Au	Indicated	52.5	0.05	0.42	3.0	59	710	5,060
		Inferred	31.7	0.08	0.36	2.4	57	368	2,470
CuAuOx	0.15 % CuEq	Indicated	175.3	0.42	0.29	2.8	1,636	1,630	15,530
		Inferred	94.7	0.30	0.30	2.3	624	924	6,970
Ag	20 g/t Ag	Indicated	36.5	0.52	0.41	69.5	421	485	81,600
		Inferred	17.0	0.40	0.43	78.9	149	235	43,130
Sulphide	0.30 % CuEq	Indicated	108.6	0.28	0.32	2.2	658	1,129	7,690
		Inferred	95.5	0.29	0.32	2.4	612	983	7,420
Total		Indicated	372.9	0.34	0.33	9.2	2,774	3,954	109,880
		Inferred	238.9	0.27	0.33	7.8	1,442	2,510	59,990

1. CuAuOx copper equivalent (CuEq) assumes metallurgical recoveries of 82% for copper, 55% for gold and 71% for silver based on preliminary metallurgical testwork, and metal prices of USD 3.00/lb copper, USD 1,300/oz gold, USD 20.00/oz silver. The CuEq formula is: $CuEq = Cu + Ag * 0.0084 + Au * 0.4239$;
2. Sulphide copper equivalent (CuEq) assumes metallurgical recoveries of 84% for copper, 70% for gold and 77% for silver based on similar deposits, as no metallurgical testwork has been done the Sulphide mineralization, and metal prices of USD 3.00/lb, Ag USD 20.00/oz, Au USD 1,300. The CuEq formula is: $CuEq = Cu + Ag * 0.0089 + Au * 0.5266$;
3. The Qualified Person for the resource estimate is James N. Gray, P.Geo. of Advantage Geoservices Ltd.; The Effective Date of the resource is July 1, 2017.
4. All figures are rounded to reflect the relative accuracy of the estimate;
5. Mineral Resources are not Mineral Reserves and do not have demonstrated economic viability;
6. The resource was constrained by a Whittle® pit shell using the following parameters: Cu USD 3.00/lb, Ag USD 20.00/oz, Au USD 1,300/oz, slope of 45°, a mining cost of USD 2.50/t and an average process cost of USD 13.26/t.

ZONES AT VARYING CUT OFF GRADES

BASE CASE HIGHLIGHTED; SEE FILO REPORT FOR DETAILS

Gold Oxide

Zone	Cutoff	Category	Tonnes (millions)	Cu (%)	Au (g/t)	Ag (g/t)	Lbs Cu (millions)	Ounces Au (thousands)	Ounces Ag (thousands)

HEAP LEACHING IS SIMPLE & LOW-COST

COMMONLY USED TO RECOVER GOLD, SILVER, AND COPPER FROM OXIDE ORES

Simple & Straightforward Proposed Heap-leaching Operation

- Ore is mined and placed on leach pads or “heaps”
- It is sprinkled with a solution that dissolves the metals
- Metals are then recovered from the solution by various methods
- Used to produce ~16% of the world’s copper and 17% of gold

Advantages over Conventional Flotation

- Lower initial capital expenditure and LOM operating costs
- Low capital intensity
- No tailings disposal required
- Simple and straightforward design with off the self equipment
- Faster construction
- Lower energy and water requirements

NEXT STEPS

Current Work

- Engineering studies ongoing
- Targeting PEA by Q1 2018

Planned 2018 Program

- 10km drill program
 - Infill/resource conversion
 - Metallurgical sampling
 - Geotechnical information
 - Step out drilling
- Metallurgical test work
- Geotech
- Water drilling
- Environmental baseline data

Targeting PFS in 2019

FILO MINING'S MANAGEMENT

EXPERTISE IN EXPLORATION, PROJECT STUDIES, FINANCING

Adam Lundin, President and CEO

- See biography on next slide (Board of Directors)

Wojtek Wodzicki, Technical Consultant

- See biography on next slide (Board of Directors)

Jamie Beck, Vice President Corporate Development and Projects

- More than 15 years of international project management and corporate development experience.
- Vice President, Corporate Development and Projects of NGEx Resources
- Previously with Lundin Mining.
- Registered Professional Engineer, Bachelor of Applied Science from Queen's University and an MBA from the University of British Columbia.

Jeff Yip, Chief Financial Officer

- CFO of Orca Gold.
- Previously with Ernst & Young and Rusoro Mining and RB Energy.
- Bachelor of Commerce from the University of British Columbia and is a member of the Chartered Professional Accountants of British Columbia (CPA, CA).

Bob Carmichael, Vice President Exploration

- Vice President Exploration of NGEx Resources.
- Previously with Lundin Mining and several other Canadian exploration companies.
- He has also been a director and first Vice President of the Association for Mineral Exploration British Columbia (AME BC) and sat on the technical committee for Geoscience BC.
- Registered Professional Engineer, Bachelor of Applied Science degree from the University of British Columbia.

Julie Kemp, Corporate Secretary

- More than 30 years of experience with public companies within the mining industry.
- Corporate Secretary of NGEx Resources.
- Previously with Aurizon Mines for more than 23 years.
- Involved in all aspects of the administration of publicly listed companies including legal and regulatory compliance.
- Member of the Governance Professionals of Canada.

FILO MINING'S BOARD OF DIRECTORS

EXPERTISE IN EXPLORATION, PROJECT STUDIES, FINANCING, M&A
TRANSACTIONS

Lukas Lundin, Chairman (non-executive)

- Successful entrepreneur focused on natural resources.
- Has led numerous companies through successful M&A.
- Graduate of the New Mexico Institute of Mining and Technology.
- Currently sits on the Board of a number of publicly traded companies.

Paul Mcrae

- Distinguished global reputation in project and construction management for both surface and underground projects.
- Most recently responsible for the development of Lundin Mining Corporation's Eagle Mine in Northern Michigan.
- Leadership of numerous other projects in Australia, Canada, Spain, Portugal and South America.

Adam Lundin, President and CEO

- Appointed as President and CEO in September 2017, Adam is focused on the future and helping Filo Mining achieve its long-term strategic goals.
- Brings years of international finance and capital markets experience to Filo Mining, complementing the strong technical team.
- Previously co-head of Pareto Securities London office.

Pablo Mir

- Practices natural resources law with focus on mining.
- Senior partner of the Chilean law firm Bofill Mir & Alvarez Jana, where heads the natural resources practice.
- Has advised mining companies on the exploration, development, financing, construction, and acquisitions of mining projects in Chile, Argentina and Ecuador.

Alessandro Bitelli

- Over 30 years of experience in the resource industry and in public accounting, both in North America and Europe.
- Member of the senior management team at the Lundin Group of Companies, he currently holds the position of Executive VP and Chief Financial Officer of Lundin Gold.
- Previously with Red Back Mining and Orca Gold.

Wojtek Wodzicki

- Exploration Geologist with 30 years of international exploration experience. Doctorate in Geosciences from the University of Arizona. P.Geo. (BC)
- President and CEO of NGEx Resources
- Previously CEO Filo Mining and Sanu Resources. Exploration and Business Development roles with Lundin Mining and Teck.

Ashley Heppenstall

- Lead Director of the Board of Directors of Lundin Gold.
- Previously with Lundin Petroleum and other public companies associated with the Lundin family.
- Degree in Mathematics from Durham University.
- Director of Africa Energy, Etrion and ShaMaran Petroleum.
